Profile Summary

Enthusiastic Full Stack Developer with a Strong Foundation in Programming and Web Development

Education

B.Tech/B.E., 2023

VELS Institute of Science, Technology and Advanced Studies (VISTAS), Chennai

12th, 2018

**Tamil Nadu,
English**

10th, 2016

**Tamil Nadu,
English**

Projects

12 Months

Wine Classification Using ML

- Developed an intelligent system utilizing machine learning algorithms to accurately categorize various types of wines based on their chemical properties.
- Utilized a dataset comprising features such as alcohol content, acidity, residual sugar, and other critical attributes for system analysis and training.
- Demonstrated practical application of machine learning in oenology, highlighting technology's potential to aid winemakers and enthusiasts in identifying and comprehending diverse wine varieties.

Certification

- Full Stack Web Developer

SKILLS

Good interpersonal and communication skills.

Ability to understand new concepts easily.

Key skills

- Core Java Programming
- Javascript
- SQL
- HTML
- CSS

Personal Information

City **Chennai**

Country **India**

Hobbies

- Learning New Things
- ESports
- Reading

Languages

- Tamil
- English

Extra curricular

Hockey
Divisional Player

Digital Art
Winner in Divisonal Level Competition

Adaptable to environment and work in it.

Willingness to learn new things.
